INVITATION

Due unicorni

World premiere: Moretti at Classic Car House
in association with K.W. Bruun Collection.

It is with great pride and joy that we invite you to a very special evening centered around the famous Italian car manufacturer Moretti.

During the summer of 2023, a remarkable adventure began when K.W. Bruun Collection discovered an incredibly rare car in a garage in San Francisco: a Maserati Moretti 3500 GT, one of the rarest Italian sports cars ever built, which was also originally sold in Denmark. In the autumn of 2023, a complete restoration of the car began in collaboration with AB Auto and Andrea Bisi from Modena and Maranello, Italy.

During the same period, we also had the pleasure of restoring another Moretti — this time in the UK, in collaboration with DTR Sports Cars and Paul de Turin — which is almost as rare: a Moretti 2300 S.

We would like to take this opportunity to celebrate the arrival of these two incredibly rare masterpieces.

JUNE 11, 2026 : PROGRAMME

17:30 : Welcome drinks in the courtyard outside Willys.

18:00 : Seating in Caroline Amalie.

18:15 : Welcome speech by Classic Car House CEO, Niels Folmann and member of the board of directors, Jan Davidsen.

18:30 - 20:00 : Dinner and presentation by Jan Davidsen, Andrea Bisi & Paul de Turin.

20:30 - 21:30 : Mingling and drinks.

21:30 : Thank you, good night.

Maserati Moretti 3500 GT – one of a kind:

The car was originally delivered in 1961 to manufacturer H.C. Knudsen in Vordingborg, Denmark, who used it as an executive vehicle. The car was involved in an accident during the winter of 1964 and was sent to Maserati in Italy for reconstruction. Maserati, however, forwarded the car to the coachbuilder Moretti in Turin. There, chief designer Giovanni Michelotti created a unique 2+2 sports coupé, which was subsequently awarded at the Geneva Motor Show in 1966.

The car eventually ended up in the United States, where it remained hidden away in a garage for many years. In 2023, K.W. Bruun Collection discovered the car in very poor condition in San Francisco, brought it back to Denmark, and had it fully restored in Modena and Maranello, Italy. After 22 months of restoration, the car now appears as a beautiful and completely unique sports car from 1966.

Together with K.W. Bruun Collection, Andrea Bisi from AB Auto in Modena will share the story of the car's origins and restoration.

Moretti 2300 S – one of only two cars:

Following the discovery of the Maserati Moretti 3500 GT, K.W. Bruun Collection decided to search for an original Moretti — and one of the rarest models ever built. After months of searching, we found a Moretti 2300 S in a garage in England, also in very poor condition.

The car was likewise designed by Giovanni Michelotti, one of Italy's most celebrated automotive designers. The Moretti 2300 S dates from 1963 and is said to feature a front inspired by the BMW 507 and a rear reminiscent of the Ferrari 275 GTB and Ferrari 250 GT Lusso. The Moretti 2300 S is an exceptionally beautiful 2+2 convertible.

Together with K.W. Bruun Collection, Paul de Turin from DTR Sportscar will present the story behind the car's origins and restoration.
